To Add a New Patient to Your Team, Click "Assign Teams" and Search Your Team.
You Can Remove Teams (for Example: ACP) via the "Remove Teams" Option

The screenshot displays the Epic Hyperspace interface for a user named JAIZIN-RES A. The main section is titled 'Patient Lists' and shows a list of patients under the heading 'LHH 4 Uris Nrsg 2 Patients'. The list includes columns for Patient Photo, Bed, Patient Name, MRN, CSN, Age/Ger, Service, Attending, and Isolation. Two patients are listed: one with bed 4601-01 and another with bed 4601-02. A context menu is open over the patient list, with the 'Assign Teams' option highlighted by a red circle. Other options in the menu include 'Print List', 'Assign Me', 'Assign Me as 1st Contact', 'End My Assignments', 'Assign Others', 'End Others' Assignments', 'Remove Teams', 'Add to Membership', 'Add to Reminder List', 'Copy Patient', and 'Send To'. The left sidebar shows 'My Lists' and 'Available Lists', with 'LHH 4 Uris Nrsg' selected. The bottom section shows 'Vital Signs' and 'Notes from Clinical Staff'.

Patient Photo	Bed	Patient Name	MRN	CSN	Age/Ger	Service	Attending	Isolation

Important to Know about Notes

- Note: **Every Day Before You Open an H&P or Progress Note, You MUST Update the "Summary" Section of the Provider Handoff.** This Is Because the Assessment Auto-Populates into the Patient Note from the Handoff and CANNOT Be Refreshed
- The Handoff Should Automatically Be Assigned to Your Context(Medicine, MICU, etc)
- You Can Find the Handoff by Clicking the SideBar
- **I Recommend You Update the Handoff Summary Every Night Instead, Before You Print Your Handoffs**
- Do **NOT** Update "Severity" Sections

- The Assessment&Plan is One Combined Block
- **The Assessment One-Liner Will Be in the "Patient Summary" Header Above It. It Will Automatically Pull the Summary From the Patient Handoff and Cannot Be Refreshed (Which Is Why We Update It First)**

My Note

When You Click the Favorited Order Set Icon (to the Right of the Search Bar), this Screen Shows Up. "Browse" Allows You to See Your Custom Order Sets. You Can Quickly Jump to Different Custom Orders by Clicking the Headers in the Navigator Panel.

The screenshot displays the Epic Hyperspace interface for a patient named Adultf-B P. Zztest. The main window is titled "Order and Order Set Search". On the left sidebar, under "Preference Lists", the "Order Sets" section is expanded, showing "Favorites", "Orders", "Lab Sets", "Nursing", "Precautions", "Activity", "AM Labs", "STAT Labs", and "Infectious Workup". A red arrow points to the "Order Sets" section. The main content area shows a search bar and a "Browse" button circled in red. Below the search bar, there are sections for "Order Sets", "Orders", "Lab Sets", "Nursing", "Precautions", and "Activity". The "Order Sets" section includes a "Favorites" list with two items: "Annual Wellness Visit Express Lane (My Version - MLA Comprehensive)" and "General Medicine Admission (My Version - General Medicine Admission MLA)". The "Orders" section includes "Lab Sets" with "Admission Labs", "Morning Labs", and "Weekend Labs". The "Nursing" section includes "Precautions" with "Aspiration precautions", "Bleeding precautions", "Suicide precautions", "Fall precautions", "Flight risk", "Adjust HOB", "Seizure Precautions", and "Neutropenic precautions". The "Activity" section is partially visible at the bottom.

Important Note About Custom Orders!

- EPIC and Northwell Prefers, whenever possible, for you to use Northwell-Specific Order Sets
- Using these Order Sets are meant so that you don't forget things
- **Also, if you do not use order sets (such as the Sepsis Order Set), then EPIC will bombard you with alerts and flags you have to keep checking until you DO use the order set**
- The Quick Orders that you use, therefore, should only be used **after** you have used the appropriate Order Set

Important Northwell Order Sets

- Acute Bacterial Pneumonia – CAP
- Acute Coronary Syndrome
- Alcohol Withdrawal
- Blood Products
- Comfort Care
- CVC, HD, or PICC Catheter Insertion and Management
- Decompensated Heart Failure
- Diabetic Ketoacidosis
- Discharge General
- General Medicine Admission
- Intensive Care Unit Admission
- Pain Orders Medicine
- Sepsis Management
- VTE ppx – Medical
- Ventilator
- Code Stroke (Under a Different Header)
- Diabetes Orders – Non-Pregnant Adults/Pregnant All Ages (Under a Different Header)

Other Order Set Notes

- Please read through the order sets and click everything that is appropriate in order to ensure it is input correctly
- You may sometimes need to click the order set in the actual "Sign Orders" Panel on the bottom right to edit the set
- **In the Sepsis Order set, make sure that a sepsis timer is checked off. If a patient comes from the ED with Sepsis flags, but they have ordered the appropriate work up and treatment, you can specifically only order a "sepsis timer" order to reduce the flags.**
- This is especially important in order sets such as heparin order sets, which automatically set an initial bolus and subsequent boluses. **In general, you should unselect these initial bolus and subsequent bolus options (except in select few cases).** An example to follow:

List of Panels

- Acute Bacterial Pneumonia – CAP
- Acute Coronary Syndrome
- Alcohol Withdrawal
- Blood Products
- Comfort Care
- CVC, HD, or PICC Catheter Insertion and Management
- Decompensated Heart Failure
- Diabetic Ketoacidosis
- Discharge General
- General Medicine Admission
- Intensive Care Unit Admission
- Pain Orders Medicine
- Sepsis Management
- VTE ppx – Medical
- Ventilator
- Code Stroke (Under a Different Header)
- Diabetes Orders – Non-Pregnant Adults/Pregnant All Ages (Under a Different Header)

End of Day

The screenshot shows the Epic Hyperspace interface for a medical professional. The top navigation bar includes the Epic logo, the user's name (MA), and various utility icons. The main content area is titled "Patient Lists" and features a sidebar on the left with navigation options like "Intensive Care Units", "LIJ Resident Teams", and "My Patients". The "My Patients" section is currently selected, displaying a table of patients. The "Sign Out" button is circled in red. Below the table, there are sections for "Available Lists" and a detailed view for a specific patient, "Zzztdr Twenty-Four, Test", which includes various checklists such as "Admission Checklist", "Daily Checklist", and "Discharge Checklist".

Miscellaneous

- After Go Live, **all messages regarding patients will be sent in EPIC chat.** TEAMS will not be offline, however
- **You Should Update your TEAMS status to say "NOTE: I will NOT be reading or responding to messages in TEAMS regarding patient care. If you have a patient matter, reach out over EPIC Chat"**
 - Please ENFORCE THIS!
